It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow elder. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.</p> <p>Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders starts with our parents, as <u>they</u> are our first teachers in our life.</p> <p>No matter what we do in our lives, who we are, and where we live, we must love as they love us unconditionally. They feel honored when we appreciate their love and respect them.</p>

A person, who does not sleep, dies at a younger age than one who does not eat. Let's say you sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third (1/3) of our lives in sleep. That's about 121 days a year!</p> <p>How much sleep do we require? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs 9 to 10 hours, and an adult needs an average of 7 to 8 hours of sleep a night. Of course, some people need only 3 hours of sleep each night. Others need 10 hours of sleep. After age 50, the average sleep time goes down to 6.5 hours a night. We need less sleep as we get older.</p>

For many people, their teenage years - from 13 to 19 - are sometimes the best or worst years of their lives. Sometimes some teenagers feel that there are many differences between them and their parents. Teenagers often want to show that what they do is correct. They want to wear different clothes to show that they are free. In some countries, they can drive when they are only 16. Many young people work at part - time jobs after school and on weekends, so they can buy their own cars. After finishing high school, some of them live in their own apartments. Still teenagers must know that their parents have a lot to share with them: their life experiences, their failures, their successes. They should respect and care for their parents as parents are the best support in their lives.

According to the passage, teenagers are between thirteen and nineteen years old.

<p style="text-align: right;">متن زیر را بخوانید و به ۵ سؤال بعدی پاسخ دهید.</p> <p>Energy has become a serious issue in recent century and many solutions have been offered by some organizations. They may ask people to consider saving energy. To achieve this purpose, we need to make small changes in our lifestyles. We should do everything efficiently, with no waste of time or energy. It can be possible by turning off lights when they are not needed, or unplugging TVs and computers when not using them. Managing inside temperature can also help. Therefore, we should adjust the temperature in our buildings to use less energy for heating and cooling. Another important factor for householders is knowing the time when the energy is at its peak-when the energy consumption is generally high. For example, in summer, when all cooling systems are in use, adding a washing machine to the cycle results in system failure or an unexpected high electricity bill. Another way to save energy is replacing devices and windows with energy efficient ones. To keep the heat inside during cold seasons, it's advisable to check our homes for openings, and add insulation or protection materials. These simple things can protect the environment and save money on our bills.</p>

<p>متن زیر را بخوانید و به ۵ سؤال بعدی پاسخ دهید.</p> <p>A collocation is two or more words combined together. These combinations sound natural to native speakers, but students of English have to learn them with exercise because they are often difficult to guess. The unnatural combinations are wrong for native speakers of English. As an example, the adjective "fast" collocates with "cars" but not with "look". Learning collocations is the most important part of learning the vocabulary of a language. Some collocations seem fixed or very strong. In "take a photo", no word other than "take" collocates with the photo to give the same meaning. The other example is "make an effort" and not "do an effort".</p> <p>Some collocations are more open, because several words may go together to give a similar meaning, for example, "keep to or stick to the rules". Sometimes, a pair of words may not be wrong, and people will understand it, but it may not be the natural collocation. If someone says I did a few mistakes, a fluent speaker of English may understand, but it would probably say, "I made a few mistakes".</p>
