P

A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying').

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.

Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English.

متن شنیداری شماره یک:

There are thousands of words in the English language. That's a lot of words. You won't know what many of these words mean, but that's ok. You can find what they mean in a dictionary.

A dictionary can be a book. A dictionary can also be online. Dictionaries tell us what words mean. They show us how to spell words. They also tell us how to say words the right way. Dictionaries also show pictures. Sometimes a picture can help you understand what a word means. So, next time you don't know what a word means, look it up in the dictionary.

Find the dictionary book. You can also find an online dictionary. The more words you know, the more you can learn about the world. How interesting that is!

متن شنیداری شماره چهار:

Dr. Asadi is answering this important question: "Why is it important to care for our elders?"
 "I think first of all, we need to remember that they are our mothers and fathers, and our first teachers. They teach us how to love, how to care, how to forgive, and how to accept. Second, elders have more knowledge and wisdom than any one of us. They've come so far and they've learned so much, we have a responsibility to learn from that wisdom. But the most important thing is their experience. We may or may not know of all the ups and downs they've faced in life but they've definitely gained experience that is worth respecting and learning from. Our elders may hide much pain from us because they don't want us to feel the pain. The least we can do is appreciate them for all they've gone through and learn from their insight into situations."
