۱۰		متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Children are taught to respect elders by their parents at very young ages. Throughout school and university, they are reminded of them while their personalities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting elders come under good habits and manners. Everyone welcomes a well-behaved person. As we all know, history repeats itself. If we will respect our elders today, we will get respect when we grow old. There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice. Another way is listening to them and following their customs, which they have lived up to. We should also repeatedly visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate our elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say, our elders are really worthy and we should respect them.

۱۲		<p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>Although you might not like ants when they get in your food or get into your home, ants are interesting tiny insects and do help the environment. They are advanced social insects, because they live in highly organized large colonies where each group has complicated important relationships with many others. The queen ant has wings and its primary function is to lay eggs. The other female ants are called workers. They build the anthill, find food and even act as soldiers. The soldier ants protect the queen, defend the colony and attack enemy colonies in search of food.</p> <p>Ants don't have ears. Ants hear by feeling vibrations in the ground through their feet. They can carry things 20 times heavier than their own body weight. The muscle arrangement in an ant gives it great strength allowing it to carry heavy things toward the entry point of the anthill. Their colonies can contain millions of ants. When a queen ant dies, the entire colony usually dies within a few months. Although many people may suppose that ants aren't dangerous, scientists have compiled a list of them which can hurt. For instance, there is a kind of ant in Australia that has a bite and can kill a person.</p> <p>❖ True / False</p> <p>40) All ants are dangerous for human. a) True b) False</p> <p>41) Ants are social insects and do help the environment. a) True b) False</p> <p>❖ Choose the best answer</p> <p>42) Which of the following is NOT true about soldier ants?</p> <p> a) They take care of the queen. b) They help to defend the colony.</p> <p> c) They find food for the colony. d) They are very strong and big.</p>
