**Speaker:** [00:03:49] The heart is one organ we really have to take care of. I think most of us don't really know how to take care of it. Or perhaps we know, but don't do enough to keep our heart in a healthy condition. Our heart is a wonderful thing when you think about it. It works so fast for years and years and years, pumping millions of liters of blood around our body. We do so many bad things to it, but it keeps working. It really is important for our life. This amazing organ is a great gift from Allah. We can thank Allah by keeping our heart and body healthy.
